Professional Summary

Backend Developer specializing in Kotlin and Spring Boot with experience designing scalable backend systems using Hexagonal Architecture and Domain-Driven Design (DDD). Skilled in building RESTful APIs, document processing systems, external API integrations, and legacy data synchronization services. Strong focus on clean architecture, maintainable code, and comprehensive automated testing using JUnit5 and MockK.

Technical Skills

Backend: Kotlin, Spring Boot, Java, REST APIs

Architecture: Hexagonal Architecture, Domain Driven Design (DDD), Clean Architecture

Testing: JUnit5, MockK, Parameterized Testing

Data: MySQL, MongoDB, SQL

Tools: Git, Gradle, Apache PDFBox, Docker

Professional Experience

Junior Software Web Developer I – FFUF Manila

October 2022 – Present

- Designed and implemented backend services using Kotlin and Spring Boot following Hexagonal Architecture.
- Developed RESTful APIs supporting web and mobile applications.
- Implemented domain-driven modules using aggregates, commands, and domain events.
- Developed a document signing service that embeds digital signatures into PDF files using Apache PDFBox.
- Implemented batch data synchronization jobs for importing legacy system data into domain entities.
- Integrated external APIs for validation and document verification workflows.
- Developed comprehensive unit and integration tests using JUnit5 and MockK.
- Refactored legacy implementations into modular backend components for better maintainability.

Previous Experience

IT Staff / Customer Support Representative / QA & Audit – DATAMODE

December 2017 – October 2022

Maintained internal IT systems, performed troubleshooting, conducted QA checks, and ensured accuracy of processed medical record requests.

Technical Support Representative (Chat Support) – Transcom PH

May 2017 – July 2017

Provided technical support for customers regarding internet connectivity, telephone services, and billing concerns through chat support.

Technical Support Representative – SYKES INC.

July 2016 – December 2016

Provided technical support to clients by troubleshooting product and service issues, assisting with account setup and configuration, and guiding users through instructions to effectively use the system.

Technical Support Staff – PUREGOLD PRICECLUB INC.

February 2015 – June 2016

Administered store servers and systems, troubleshot network and computer-related issues, supported employees with business software and web applications, and maintained store equipment including computers, printers, POS systems, price verifiers, and weighing scales to ensure smooth daily operations.

Education

Bachelor of Science in Computer Science – New Era University (2008 – 2013)

Certifications / Training

Full Stack Coding Bootcamp – Zuitt Philippines (2019 – 2020)
